OUR GOAL

Miell Green is a member of Miell Group. The company was founded in 2021 with the aim of helping sustainability and environmental protection with green products and services. Since the establishment of our company, quality and innovation have been the most important focus areas, considering the aspects of conscious customers. We offer a wide spectrum of solutions for both home and industrial use.

PROTECTING THE TREES

Our personal concern and responsibility is to protect the trees. Nowadays, approximately 7 000 000 m³ of trees are cut down in Hungary every year. When creating our products, it was a primary consideration that we want to reduce this number and replace wood as a basic material with recycled plastic. All of our products are guaranteed to be free of wood.

BASIC MATERIALS

The basic materials we use are almost 100% plastic waste, which are generated in our every day life and in the industry, therefore the recycling of this plastic waste is fully guaranteed. In addition, we are able to reuse all the products we manufacture at the end of their life cycle, thus ensuring their continuous circulation and the protection of our environment.

PRODUCT BENEFITS:

- UV resistance
- Weather resistance
- Easy to handle
- No extra care required
- Colors available on request
- Available in several sizes
- Our products can be drilled, cut and carved
- Resists pests and parasites
- At the end of their life cycle, they are 100% recyclable

SPECIAL NEEDS

If you are thinking of ordering a larger number of pieces, but you cannot find the perfect size, color, or shape for you, contact us and we will help you realize your unique ideas!

ECO+ PRODUCT LINE

Taking customer needs into account, we have created our new ECO+ product line with an outstanding - value for money. Like our other products, they are made from recycled plastic waste, however, unselected materials are used for the manufacture, without the addition of dyes and UV stabilizers.

Characteristics of our ECO+ product range:

- Excellent value for money
- Made from 100% recycled material
- Products with gray-black shades

Available for all our products!
